TGM-35R

* **Excellent Cooling Performance**
  Our products keep a stable temperature through out the unit, even under heavy use.

* **Tasteful and Modern Appearance**
  The design of our products is one of our top priorities.
  Whether you have a restaurant, bar convenience store or gas station.
  Turbo Air refrigerators will compliment the look of your operation.

* **Double Pane Glass Doors with Heat Reflecting Film**
  Our refrigerator doors are unique compared to other display refrigerators.
  We use a double pane glass system with a layer of patented, transparent, thermal insulating film applied between the two glass layers.
  Less weight means less door roller wear less overall door maintenance, and easy door operation.

* **Hardware, Insulation and Construction**
  Inside temperature is controlled automatically.
  All refrigeration systems are on slide out rails to make maintenance and service easier.
  Cabinet body is insulated with 100% foamed - in-place polyurethane foam insulation.

* **Shelving**
  Fully adjustable wire shelves are made of the heavy gauge metal wire with non-corrosive coating.

*Design and specifications can be changed without prior notice for product improvement.

* Standard Features

- White color cabinet.
- Black color frame on door.
- Double pane glass door with thermal film.
- Fully adjustable wire shelves with non -corrosive coating.

* Option

- Gravity feed merchandising racks.
- Customized graphics & color available in quantity

* Holds 33 F~38 F

* Foamed with polyurethane, high-density cell insulation(CFC Free)

(unit : inch)
