

8542 Koffee King® One Warmer In- Line Pour-Over, Lo-Profile Coffee Brewer

8543 Koffee King Two Warmer In- Line Pour-Over, Lo-Profile Coffee Brewer

If you're looking for rich, flavorful coffee but are tight on counter space, plug in the Bloomfield Lo-Profile Pour-Over brewing system. At a little under 17" tall, it's short in stature, but long on features. Like all Bloomfield products, this proven, efficient brewing system is designed to take advantage of the finest electrical components and has the lowest service cost in the industry for this type of brewer. Our exclusive water delivery system spreads a precise amount of water over the coffee grounds for complete saturation and much better taste.

Features

- A high level of commonality of parts with other Bloomfield models will significantly reduce the inventory of spare parts required to service many body styles.
- Exclusive design provides **easy access to components** for quick service.
- **Ready-to-Brew light** indicates the proper water temperature to help eliminate the guess work in brewing.
- **Premium quality thermostat** has a full-length stainless steel sensing bulb that recognizes water temperature accurately and cycles less frequently.

- **One piece drawn stainless steel water tank** has a superior design for extended life.
- **Superior sprayhead design** spreads water over the coffee grounds, creating agitation and a floating action that completely saturates the coffee to capture the full, rich essence of every bean.
- Porcelain **enameled warmer plates** position decanters securely and, with no exposed screwheads, will not scratch or scrape decanters.
- High quality easy to clean **stainless steel construction**.

Accessories

Bloomfield offers a full line of coffee warmers, grinders and glass decanters.
