TG-1

Our passion at Crown Verity is to bring the precision and performance of commercial kitchens to the outdoor environment. To that end we design and manufacture our grills to be reliable and go beyond traditional industry specifications.

Our grill bodies, cooking grates, burners, radiants, water pans, fasteners, pilot tubes are all constructed of 304 series stainless steel for durability and ease of cleaning. Compared to units made of metal or 430 stainless steel, our units are built to last.

15,000 BTUH stainless steel burners are placed every 5.75" to ensure the most even heat pattern possible. These units heat up to cooking temperature within 5 minutes. Our stainless steel burners and cooking grills carry a 10 year and lifetime warranty, respectively.
