Up to **18** hrs of light  
from a 10 hr charge

## ONE YEAR LIMITED

# 1

## WARRANTY

**Platinum+** series by Hollowick, leads the market of Nickel Metal Hydride (NiMh) battery commercial rechargeable systems. Designed specifically to withstand the rigors of foodservice use, the **Platinum+** system, available in Amber and Candlelight, is the smart choice for flameless table lighting.

**Platinum+** Rechargeable LED Candles will fit most Hollowick lamps and holders

- + **NEW** Easy-off charging pins
- + **NEW** More natural flicker
- + **NEW** Improved battery protection
- + **NEW Candlelight** color matches live flame

The new **Platinum+** charging tray features a **new, more durable receiving pin** that was redesigned to better withstand the rigors of commercial use. Four trays may be linked, allowing up to 48 candles to be charged per power adaptor. **Platinum+** series charging trays are designed to be wall-mounted, preserving valuable counter space.

Nickel Metal Hydride (NiMh) Batteries - A 10-hour charge produces up to 18 hours of run time. Charging Indicators, LEDs on the charging tray, indicate charging status for each candle:

**GREEN** indicates fully charged; **RED** indicates charging.

### **No Overcharging or Battery Safety Worries -**

**Platinum+** is designed to charge each candle only as needed and to adequately keep each candle unit fresh and ready for use. Battery safeguards have been built into the tray and each candle.

**Platinum+** is fully compatible with original Hollowick Platinum rechargeable LED systems and components.
