Half Solid Door Refrigerator

Reach-In Top Mount
M3 Series

Model : M3R47-4

≡ FEATURES & BENEFITS ≡

- **Digital temperature control system**
 Provides precise and constant temperature. This level of precision allows food products to remain fresh over an extended period of time.
- **High-tech monitor**
 The monitor digitally displays the present temperature. You can easily change the temperature by adjusting the thermostat.
- **Hot gas condensate system**
 Through Turbo Air's creative innovation, the condensate system surfaces have been specially treated to resist corrosion. This not only increases efficiency without the risk of refrigerant leakage from corrosion, but also prevents the overflow of condensate water.
- **LED interior lighting system**
 Brighter and longer lasting LED lights provide attractive, enhanced illumination compared to fluorescents. It saves energy by producing less heat, while maximizing the visibility.
- **Door pressure release device**
 Pressure relief doors are designed to eliminates vacuum pressure and allows easy, instant door opening.
- **Efficient refrigeration system**
 M3's solid door refrigerators are designed with oversized and balanced (CFC Free R-134A) refrigeration systems. These include efficient evaporators and condensers for faster cooling and greater efficiency.
- **Stainless steel cabinet construction**
 The Turbo Air M3 refrigerator model boasts a stainless steel exterior (galvanized steel top, bottom and back) and stainless steel interior with AL inside walls and door liners. It guarantees the utmost in cleanliness and long product life. Unlike other companies' products, the sharp corners and edges have been rounded to reduce the risk of injury. The M3 can add a touch of style to the most refined setting.
- **Automatic evaporator fan motor delays**
 When the door is opened the evaporator fan will stop, preventing the circulation of hot and moist air from escaping into the refrigerator. This increases energy efficiency and lengthens the life of the compressor.
- **Adjustable, heavy duty, PE(polyethylene) coated wire shelves**
- **High-density polyurethane insulation**
 The entire cabinet structure and solid doors are foamed-in-place using high density, CFC free polyurethane insulation.
- **Magnetic door gaskets**
 Magnetic door gaskets are of one piece construction, removable without tools for ease of cleaning and replacement.
